a certain tumblr blog - am i crazy?

DISCUSSION

A question to those of you who also use tumblr, there is a tumblr user by the name of davekat-sucks that posts every single day, floods various tags, and her takes are so strange...? i have her blocked bc otherwise i would only be seeing her posts on my "for you" dash, but i do check in every few months to see if she's changed. My question is, am i the only one who thinks this person is insane or really devoted to trolling? every post i read makes me scratch at my head and wonder how she and her various anons came to those conclusions about homestuck, the epilogues, beyond canon, and the creators of beyond canon. I'm just so confused

P.S. I'm unsure if this post meets the rules of this subreddit, so i fully understand if i need to delete it or something

I have her blocked too. I don't know or care whether or not she's genuine; she's being performatively negative regardless, and I do not have the patience for that.

ah, davekat-sucks! been around for ages i still consider them an enigma. they're either a next level troll or an extremely stupid hater

Yeah, they're like the black moho inside the bathroom walls. You know it's kind of a problem, but something of a weird roomie too

Same, actually the first person I've ever blocked anywhere. Though that said more about my patience with social media in general I suppose. Their takes are pretty strange. I donno if they're trolling though. Feel they might just be a professionally negative person who confuses their headcanons with canon and cherry-picks (I think maybe unintentionally from memory) moments in the story. They seem pretty unhinged especially with the amount of posting they do.

idk if they're the same person or not but if so,... uh they've been going since like, before davekat was canonified.... I blocked them ages ago.

I hope the grass in their yard grows some day so they can touch it.

I think everyone is entitled to have whatever takes they want about a piece of fiction, even if those takes seem to have no basis in canon, though this user's ignoring tumblr etiquette to not posting hate in character tags is annoying. however, they've also made some posts psychoanalyzing creators and other fans to a degree that makes me uncomfortable, that's the stuff that crosses a line for me whether or not it's genuine

who did you expect? the easter bunny?

I used to follow davekat-sucks back when it was mostly just a gimmick account about her saying various ships are better than davekat. I occasionally did talk to her directly. I forgot when I unfollowed her, but i remember I blocked her when I came across some insane rambling about hussie or whatever.

I am unfortunately pretty intimately connected to the 4chan/kiwi farms side of the fandom davekat-sucks is descended from. Parts of it are fossilized from 2010, a lot of it is pretty new as a natural consequence of the unfunny lowbrow le epic troll edgy shock humor of early post canon. It frequently gets exactly like davekat-sucks, she definitely ain't unique. I really don't know how they do it lol they really do never shut up about their weird alternate version of homestuck. Also I'm pretty sure I might be directly responsible for kickstarting the revival of that side of the fandom in the early 2020s. Whoops.

I blocked Davekat Sucks immediately because they are kinda insane, they seem to just hate for the sake of it.

this is one of the few blogs i've ever blocked on tumblr because of how much they flood the tags 🌈 i remember whatever it was they posted that pushed me over the edge to actually block was absolutely vile, though i don't remember what it was.

Yeah shes been around for a little bit. Im not a fan of anyone who makes their personality hating on something popular. But her in particular is just so... eugh

I blocked them after seeing the fatphobic stuff they were saying about some of the pesterquest sprites. Like you're allowed to have opinions, but the way they said stuff about it was just plain weird and rude. Plus, all the slurs that are used on the blog is just gross.

Yeah, they've been around for a while. Weird takes, annoying posts. Not my taste, either.

Calibom did Nothing Wrong

Who cares. It's some rando on Tumblr in 2025. Who gives a shit what this person likes or dislikes. How is this relevant in the larger scheme?

AnonymousTurtle OP

Sylph of Hope

It's not relevant in the larger scheme, i guess i wanted reassurance that I'm not the crazy one

Why are you even concerned about this blog? Why are you letting it make you question yourself? Just mute them or block or whatever you do on Tumblr to avoid seeing posts by someone (I don't know because I haven't seriously used it in over a decade), and go about your day. Why even acknowledge it?

It's not a Homestuck topic, in any case. It's a fandom drama topic.

I think I've come across her some time back, idk how long ago tho, could be a different blog doing a similar gimmick a couple of years back, blocked her pretty fast

she's also fairly active in the sahon discord when that's happening. not really sure why they let her in, she's pretty plainly homophobic from her posts.
